

JESSEL ZAPANTA

Web Developer | Computer Science Instructor

Ozamiz City, Philippines | 0945-221-2502 | jeszapanta9@gmail.com

GitHub: github.com/JesselZapanta | Portfolio: jeszapanta.vercel.app

PROFESSIONAL SUMMARY

Computer Science graduate and Web Developer with hands-on experience building and maintaining web applications using PHP, Laravel, React.js, JavaScript, HTML, CSS, and MySQL/SQL. Skilled in database integration, REST API development, responsive front-end implementation, testing, and deployment across monitoring, management, publication, and e-commerce systems. Combines practical development experience with instructional experience teaching programming, algorithms, and problem-solving.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, PHP, SQL

Frameworks/Libraries: Laravel, React.js, Inertia.js, Tailwind CSS, Axios, Ant Design, shadcn/ui

Database: MySQL & SQLite

Web Development: Responsive design, REST APIs, deployment, version control (Git/GitHub)

PROFESSIONAL EXPERIENCE

2025 – Present	CS Instructor Tangub City Global College Teach fundamental Computer Science concepts, including programming, algorithms, and problem-solving.
2026	Web-Based OJT Monitoring and Logging System Built a centralized platform for monitoring and managing records, with responsive interfaces and database integration.
2026	Campus Discipline and Incident Management System Developed a system for recording and tracking campus discipline incidents using database-driven workflows.
2026	Kiosk Queuing and Document Tracking System Gathered end-user requirements and supported deployment of a kiosk-based queuing and document tracking system, translating requirements into system functionality.
2026	Full-Stack E-Commerce Platform Built an e-commerce app with product catalog, shopping cart, and order management; integrated frontend, backend, and database/API components.
2025	Freelance Web Developer Self-employed Developed web-based monitoring, attendance, and inventory management systems using Laravel, React.js, and Axios.
2024	Web Developer — Thesis Project Developed a web-based publication management system (Laravel, React.js, Inertia) for managing and disseminating digital publications.

EDUCATION

2021 – 2025	Bachelor of Science in Computer Science Tangub City Global College
